PROFILE

AI&ML undergrad student with a relentless passion for software development, blockchain, and finance.

Familiar with Windows, and Linux environments. I'm good at analyzing Algorithms, confident working with C, Java, JavaScript, Node.js, MongoDB,, Solidity(Writing smart contracts), and Web3

PROJECTS

- Flight Price Checker(Python)
- Weather App(JavaScript)
- Stocks Price Messenger (Python)
- Spotify Playlist Generator(Python)
- FileSharing App(Node.js, MongoDB)
- Real-Estate Voting(Solidity)
- VirtualEstate(Solidity, Node.js, Web3)

EXPERIENCE

TECH TEAM LEAD

GOOGLE DEVELOPERS STUDENT CLUBS

A teamwork experience helped me learn google technologies, and organize and conduct tech events in the college

INTERN

MOVE DEVELOPERS DAO(a web3 company)

MOVE is building the next big programming language for writing smart contracts and deploying DApps on the Aptos blockchain. I take care of Content (Writing MOVE Documentation) and operational part(Cold mailing people) helping me come out of my comfort zone and adapt to the work and the environment

EDUCATION

MVJ COLLEGE OF ENGINEERING

B.E in Artificial Intelligence and Machine Learning

Currently in 3 year - 9.55 cgpa

SRI CHAITANYA PU COLLEGE

Subjects included Math, Biology, Physics, Chemistry, English and, Kannada - 90.1%

2020

JSS PUBLIC SCHOOL

89.4%

HOBBIES

MOVIE- FREAK

Love watching movies and being a critic

PODCASTS

Interested in listening to people's stories, experiences, and etc.

A TRUE CRIME JUNKIE

I will never miss listening, reading, and researching crime stories
